Mosquito Spraying

With the rain the area has been getting and the high temperatures, we know that mosquitos have come out in full force throughout the state. The Association has been in contact with both Fort Bend County and Missouri City regarding everyone's concerns and to see how they are responding to this influx in mosquitoes. Both have stated that they are aware of the situation and have increased mosquito spraying to twice per week. If you would like to keep up with the spraying schedule, you are now able to do so visiting www.fortbendcountytexas.gov.

To reduce mosquito breeding, we recommend getting rid of standing water, where mosquitoes lay eggs and larvae grow, such as in bird baths, pet bowls, kiddie pools, flower pots and gutters.

Your FirstService management team strives to provide the best possible service. If you have any questions or concerns, please contact us at 713-332-4750, or you can visit us at our new office location at The Club at Riverstone, 18353 University Blvd., Sugar Land, TX 77479. We thank you for your support!

Regardless of anyone's fitness goals, it would be hard to attain those goals without proper nutrition. Food is what fuels your body to reach your goals and without proper nutrition through quality foods, you're likely to stall. As a result, if possible, eat organic foods, and above all else, maintain a balanced diet consisting of fruits, vegetables, complex carbohydrates, complete proteins, and fats including such things as fish oils and flaxseeds. Nutrition is the catalyst to making all of the fitness goals you have set for yourself, attainable.
