Fence Maintenance Tips for a Beautiful Neighborhood

As warmer weather sets in, it's a great time for homeowners to take a look at their property fences. Whether your fence is wood or metal, regular maintenance not only helps preserve its appearance and longevity but also keeps our community looking well-kept and inviting. Please make sure to reach out to your neighbor for any maintenance needed for shared fences between properties. Here are some simple guidelines to help you keep your fence in top shape:

For Wood Fences

1. Inspect Annually

Look for signs of rot, loose boards, warping, or insect damage. Pay special attention to posts and areas near the ground.

2. Clean and Treat

Clean your fence with a mild detergent or a power washer (on a low setting) to remove dirt, mold, and mildew. Every 2–3 years, apply a weather-resistant sealant, stain, or exterior-grade paint to protect against moisture and UV damage.

3. Repair Promptly

Replace broken or rotting boards right away to prevent further deterioration and safety concerns.

4. Keep It Clear

Trim bushes and vines away from the fence to avoid trapping moisture and causing damage.

For Metal Fences (Iron, Aluminum, Steel)

1. Check for Rust and Corrosion

Inspect your fence for rust spots, especially around joints or near the base. Remove minor rust with a wire brush and apply a rust-inhibiting primer followed by exterior metal paint.

2. Wash Seasonally

Hose down or hand-wash with soapy water to remove debris and pollutants. This helps maintain the finish and spot early signs of wear.

3. Tighten and Oil

Tighten loose screws and hinges. Apply lubricant to moving parts like gates to keep them functioning smoothly.

4. Avoid Vegetation Buildup

Keep plants and soil from leaning on or building up against the fence, which can lead to rust or compromise stability.

Neighborhood Reminder

Please remember that all fence repairs or replacements must comply with HOA guidelines and may require prior approval. Keeping your fence in good condition benefits your property and enhances the overall look and value of our neighborhood.

If you have questions about approved materials or need to submit a request for repairs, please contact the HOA board or visit our community website.

Let's work together to keep our community looking great—one fence at a time!

HOW WE SELECT PLANT MATERIAL FOR OUR COMMUNITY SPACES

One of the most frequent questions we receive from residents is how we choose the plant material for our common areas. Whether it's the front entrance, medians, pocket parks, or community buildings, we understand that these spaces reflect the beauty and identity of our neighborhood. That's why thoughtful plant selection is a top priority.

Our landscaping decisions are not made lightly. We rely on the expertise of our professional landscape maintenance team and guidance from a trusted third-party horticultural consultant. These professionals bring years of experience in regional landscaping, ensuring that our selections are well-suited to both the aesthetics and climate of our area.

As a Texas community located in USDA Hardiness Zone 9, we face unique challenges. The extreme heat, periodic droughts, and occasional hard freezes mean that our plant choices must be resilient. While the variety of truly hardy plants is somewhat limited in our region, we focus on species that offer both durability and visual appeal.

Whenever possible, we prioritize plants that are both drought-tolerant and freeze-hardy. This helps maintain the long-term health and appearance of our landscapes while also being environmentally and economically responsible. We avoid choosing high-maintenance or overly delicate species that are likely to suffer or need frequent replacement.

Through ongoing observation and collaboration with our landscaping partners, we've identified several plant varieties that perform well in our environment. Sunshine ligustrums, for example, provide vibrant color and structure year-round. Blue salvia adds seasonal interest and is known for its ability to bounce back after temperature swings. We've also had great success with sandy leaf fig, weeping 'Weedila' varieties, society garlic, and a mix of ornamental grasses and native perennials that offer both resilience and texture.

It's important to remember that landscaping is a dynamic process. Weather patterns, soil conditions, and even plant maturity all play a role in how well an area performs. We continually monitor the health of our plantings and make adjustments as needed to ensure the best long-term results.

In addition to functionality, we aim to create spaces that are inviting, colorful, and complementary to the architecture and layout of the neighborhood. We believe that attractive and well-maintained common areas benefit the entire community—not just visually, but by helping to preserve property values and encourage pride of place.

We appreciate your continued support and feedback as we work to keep our community looking its best. If you ever have questions or ideas related to landscaping, please don't hesitate to reach out to the HOA office. Your input is always welcome.

Seasonal Planting Tips for Zone 9 Homeowners

Spring (March–May)

- Best time to plant perennials and flowering shrubs.
- Mulch early to lock in soil moisture before summer heat.
- Try: Salvia, Lantana, Esperanza, Texas Sage.

Summer (June–August)

- Water deeply and less frequently to encourage strong root systems.
- Avoid planting during peak heat unless absolutely necessary.
- Trim back overgrown or leggy plants to encourage new growth.
- Look for heat-loving performers like Pentas and Duranta.

Fall (September–November)

- Ideal for planting trees, shrubs, and hardy perennials.
- Fertilize lawns and beds to support root growth before winter.
- Great time to divide crowded plants and refresh mulch.

Winter (December–February)

- Protect sensitive plants with frost cloth when temperatures drop.
- Prune dormant trees and shrubs (except spring bloomers).
- Use this time to plan and redesign beds for spring installations.

General Tips:

- Always check plant tags for sun exposure and water needs.
- Prioritize native or adapted species—they're more likely to thrive.
- Group plants by water needs to simplify irrigation.
- Don't be afraid to experiment—but monitor new plantings closely!

COMMUNITY SPOTLIGHT

ARIA'S WISH TO PLANT 1,000 TREES

A Heartfelt Commitment to the Community

In April 2025, something truly remarkable unfolded in Sugar Land, where Aria, a bright young girl deeply rooted in the Riverstone community, had a wish that blossomed into reality. With her heart full of compassion and a fierce determination to give back, Aria witnessed the devastating storms that struck Houston in 2024. The destruction left in the wake of those storms was heartbreaking—homes were damaged, public spaces were devastated, and beloved trees that once stood tall were uprooted, leaving her cherished neighborhood in disarray. The sight of her community in anguish ignited a fire within Aria, inspiring her to take action and make a difference.

Though the storms had left scars, Aria's dream extended beyond just recovery; she envisioned a greener, healthier community for all to enjoy. With an impassioned heart, she made a heartfelt wish to plant 1,000 trees, symbolizing hope and renewal. To Aria, this number was not merely a goal; it encompassed her deep desire to restore beauty to the land and enrich the lives of her friends and neighbors.

The path to fulfilling Aria's dream was paved with love and support from various organizations and community members. Partnering with Make-A-Wish Texas Gulf Coast and Louisiana, the foundation for Aria's vision was built. Together, the Riverstone community stepped up to display unity and altruism, offering their time, resources, and unwavering enthusiasm to help bring Aria's dream to life. Riverstone planted 50 trees throughout Avalon Park in support of Aria's wish. It was nothing short of inspiring to witness people of all ages coming together, united by the common goal of nurturing nature—a glowing example of community spirit.

Throughout the planting events, Aria's excitement was palpable. With each tree that was planted in the ground, the sense of hope and renewal grew among the volunteers. Aria spent her days helping choose the locations, learning about different tree species, and sharing her passion with others as she spread the message of environmental stewardship. Families and friends gathered, making the tree-planting sessions not just acts of service but also joyous celebrations of community and nature.

The project culminated in a beautiful ceremony in late May, where the last tree in Riverstone was planted. The Riverstone Team and family members joined Aria in honoring her commitment to the environment. This occasion not only marked the completion of her wish but also reinforced the importance of fostering a love for nature in future generations. Each planted tree served as a living tribute to Aria's vision, a reminder of what could be achieved when a community came together for a common purpose.

Aria, 9
Sugar Land, TX

Thank you for helping me
Plant 1,000 Trees!

The impact of Aria's wish extended beyond the immediate beauty of the new trees; it ignited a spark of environmental awareness within the community. Residents were inspired to continue caring for their surroundings, embracing sustainable practices, and advocating for the protection of the natural world. As the trees grow, so does the hope for a greener and more sustainable future.

Aria's wish transformed not just the landscape of Riverstone but also the heart of the community. It exemplified the power of youthful passion and determination to inspire change, reminding everyone of the importance of cherishing and protecting the environment. Each tree stands tall not only as a symbol of nature's resilience but also as a testament to a girl whose dream had become a beautiful reality, encouraging everyone to dream big and take action for the planet we share.

Refreshing Watermelon Salad Recipe

Watermelons are ripe and sweet in the grocery store now. This salad will make a refreshing dish at a BBQ, by the pool or straight out of your fridge.

Ingredients:

- Watermelon (cubed or cut as melon balls)
- Cucumber (sliced chunky and in quarters)
- Feta Cheese
- Fresh basil & mint (washed and torn)

Dressing:

- Honey
- Lime
- Extra Virgin Olive Oil

Start with approximately 2 tablespoons of each ingredient and adjust to taste from there. Mix dressing.

Place the ingredients in a large bowl, drizzle the dressing over it, toss and serve cold! Enjoy!

Tennis Court Etiquette

- Talk quietly when standing near tennis courts that are in use so as not to disrupt players on adjacent courts.
- Never walk behind a court when a point is still in play. Wait until the point is over and then cross as fast as possible to get to your own court.
- When sending balls back to a neighboring court, roll them on to the back of the court.
- Never send them back while play is in progress. Also, if one of your balls rolls into an adjacent court, don't run after it, just wait for your neighboring court to return the ball when it's convenient.
- When reserving courts please be considerate to other residents by cancelling your reservation when you know that you will not be using it.

Tennis Court Reminders

- Please remember all tennis court reservations are now available through the Riverstone app only.
- Remember that court reservations will be forfeited after 15 minutes of not showing up for scheduled start time.
- Tennis courts are for the use of tennis or pickleball play only. Any other sports or equipment are strictly prohibited. For more information refer to rule #4 at the Resource Center under Community Info.
- Parking for use of Tennis Courts 9 & 10 is at the Riverstone Blvd Recreation Center. Please refrain from parking within the Parkside neighborhood.

New Club

Bridge Club • We're exploring the idea of starting a Bridge Club right here in the community. Whether you're a seasoned player or new to the game and eager to learn, we'd love to hear from you!

Interested? Email your Lifestyle Director at solomond@riverstone.com.

If there's enough interest, we'll kick things off with a casual Meet & Greet to connect and plan our first game night. *Let's deal you in!*

BLAST FROM THE PAST

Bunny & Brunch Hop

Thank you to everyone who joined us for an unforgettable afternoon of Easter fun at the Club at Riverstone! Families followed the colorful egg trail and were warmly greeted by our wonderful Riverstone businesses handing out festive treats along the way. Residents enjoyed local eats while kids (and kids at heart) had a blast with activities including a petting zoo, bounce houses, face painters, balloon twisters and a DJ. Of course, the highlight of the day was capturing family photos with the Easter Bunny.

Thank you to the following businesses for making this event a success: *Amaya Orthodontics, Astound Black Belt Martial Arts Center, Code Ninjas of Riverstone, CycleBar Sugar Land, Ecstasy Laser Spa, Fort Bend County Homeland Security & Engagement Management, Hand & Stone Riverstone, Kids R Kids Learning Academy of Riverstone, KidVenture, Master Lee's World Champion Taekwondo, Pengu Swim School—Riverstone, RapidCare Emergency Room, Riverstone Memory Care, Stemtree of Riverstone, Subtle Smiles, Sugar Land Pediatrics, The Kintess School, The Ultimate, Xperience Luxury Dream Bar, Unite & Inspire, UTSAH Health*
